

<b>PRODUCT DESCRIPTION</b>	KEMOLUX UNIVERSAL fast drying primer is produced on the basis of alkyd-phenolic resin with the addition of anticorrosive pigments. It is rapid drying, has excellent adhesion, and good anticorrosion and mechanical properties.
<b>PRODUCT RANGE</b>	KEMOLUX UNIVERSAL FAST DRYING PRIMER - red KEMOLUX UNIVERSAL FAST DRYING PRIMER - grey
<b>THINNER</b>	Thinner nitro
<b>GLOSS</b>	Matte
<b>DRYING TIME</b>	On dust 20 min, for handling 60 minutes, to harden within 10 hours. The next layer can be applied after 20 minutes.
<b>SOLIDS CONTENT</b>	55 ± 2% (volume) 75 ± 2% (weight)
<b>VISCOSITY</b>	35 - 45" (HRN EN ISO 2431:2012) DIN 6, 20°C
<b>DENSITY</b>	1,4-1,5 kg/l (HRN EN ISO 2811-1:2016)
<b>VOC</b>	A(i), 500g/l; max. 450 g/l
<b>SPREADING RATE</b>	10-11 m <sup>2</sup> /l in one coat on a smooth surface, with 30 µm DFT.
<b>PRODUCT CHARACTERISTICS</b>	It is used as an anticorrosion basecoat to protect metal surfaces in the production of agricultural machinery and equipment, tools, industrial equipment and other products from the metalworking and mechanical engineering industrial products.
<b>APPLICATION</b>	On well prepared metal surface (rust, grease and moisture removed) it is applied with a brush or roller (diluted to a max. of 10% thinner) and by spraying or dipping (diluted with 15-20% of thinner) in two layers, 20 minutes after applying the first layer and at 20 °C. Stir product before use! Recommended top coats are: 2x KEMOLUX enamel varnish / 2x KEMOLUX fast drying enamel varnish / 2x HARDLUX metal effect varnish / 2x HARDLUX professional varnish / 2x HARDLUX hammerschlag effect varnish / 2x KEMOCEL nitro varnish / 2x KEMOCEL fast drying enamel varnish .
<b>STORAGE</b>	Store in a dry, well ventilated space out of direct sunlight at a temperature between +5 °C and + 25°C.
<b>SHELF LIFE</b>	5 years
